Weare, NH 03281

Subject: Weare - Public Water System: Lakeshore Village Resort (EPA #2458010)

Dear Mr. Colburn:

The records of the NH Department of Environmental Services (DES) show that the Lakeshore Village Resort water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established Master Sampling Schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326. Pursuant to Env-Ws 351, the failure to submit a chemical sample requires that public notice of such failure be given to all consumers.

DES records show that the subject water system failed to submit the following chemical sample result for sample site 004 "SOURCE TAP/ BRW 2" for the following monitoring period:

**Quarter 3 2005 – Nitrate**

As a result of the failure to submit the above-described sample, a **Notice of Violation (NOV)**, dated **October 19, 2005** was sent to you. The NOV requested that you immediately submit the above-described sample as a **make-up sample**. To date, DES has not received the make-up sample result, thus placing the water system in violation of Env-Ws 326.

DES believes the monitoring/reporting deficiencies can be addressed by taking the following actions:

1. **By February 24, 2006**, submit the **Nitrate** sample as a "**make-up sample**" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis result form when submitting the sample to your laboratory; and
2. **By February 24, 2006**, provide public notice to the consumers, and submit proof of public notice to this office following the guidelines on the enclosed public notice handout.

In the event compliance is not achieved within this period, DES may initiate formal action against you, including issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

**Please note that submission of the 2005 Nitrate “make-up sample” does NOT relieve you of your obligation to submit all required 2006 chemical samples from both sampling sites during the Third Quarter (July to September).** To assist you in complying with your monitoring requirements, a copy of your Master Sampling Schedule is enclosed.

The proof of public notice as requested above should be addressed as follows or faxed to (603) 271-5171:

Allyson Gourley  
Department of Environmental Services  
Water Supply Engineering Bureau  
29 Hazen Drive, PO Box 95  
Concord, NH 03302-0095

If you have any questions regarding this letter, please contact Allyson at (603) 271-0655 or by email at [agourley@des.state.nh.us](mailto:agourley@des.state.nh.us).

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read "COPY", is written over the typed name and title of the sender.
